

50X1-HUM

MEMORANDUM FOR: THE DIRECTOR OF NAVAL INTELLIGENCE  
DEPARTMENT OF THE NAVY

SUBJECT: Charts Used by Polish Merchant Navy

1. The navigation charts used by the Polish Merchant Navy are those issued by the British Admiralty. They are being corrected at present from a publication called "Notices to Mariners."

2. [redacted] a new hydrographic office has been set up in Gdynia which has started to issue its own charts on a small scale. No important work has been done by this office as yet, and its work has been limited to plans of harbors.

50X1-HUM

3. The charts of Russian coastal waters being used by the Polish Merchant Marine are British charts which have not been corrected for a long time. The Poles have not received Russian charts or publications, but they have been told that they may get some very good ones covering that area in the future.

FOR THE DIRECTOR OF CENTRAL INTELLIGENCE
